If you would like any further information, or answers to any questions you may have, then please do not hesitate to contact us.

Working with mainstream schools, SEN schools, PRU's, and local authorities, we specialise in delivering vocational training, education, intervention and enrichment programmes, sensory workshops and much more, to both school children and post 16. We offer accredited courses in Automotive Repair and Maintenance and Construction, ranging from entry level to recognised industry status. We also offer English and Maths (Functional Skills and GCSE delivery), and bespoke learning packages to suit any learners needs. Our centres are Institute of the Motor Industry and Ascentis approved centres. Our training facilities are modern and spacious, designed to provide a true work-based learning environment for all, and includes classrooms with IT and interactive whiteboard facilities.

We believe that knowledge should be shared, and structure sessions to an individual's needs, enabling appropriate learning and pastoral issues to be addressed. At 4Tech Moto and 4Tech Training, we aim to empower learners to reach their full potential, enabling pupils to develop personal, and professional growth.
